16. Juni 2020

During the holidays there is tutoring in German and mathematics for children from 1st to 8th grade. The tutoring will take place in the last two weeks of the holidays from Monday to Friday (3rd – 7th August and 10th – 14th August). It will presumably be for three hours in the morning. Every child participates in one week of tutoring. In some instances, children can take part for both weeks. The tutoring is free.

Due to the closure of schools, some children could not learn as much as usual. If you would like your children to attend tutoring sessions during the holidays, please write to the classroom teacher. You can either contact them via email or you can cut and fill out the bottom of this letter, and your child can bring it to school. We need an answer by 24th June at the latest. Important: the actual enrolment will take place on a later date. We are just planning now.

Stefanie Hubig

Dr. Stefanie Hubig

Ich habe Interesse, dass mein Kind _____
(Name, Klasse) an dem Förderangebot in den Sommerferien teilnimmt.
